ABOUT THIS WORK

Project Overview

This portfolio presents selected excerpts from a long-form English-to-Indonesian translation project. The work involved interpreting complex sentence structures, maintaining consistent terminology, producing natural Indonesian phrasing, and completing a final editing and proofreading review.

PROJECT INFORMATION

Language Pair	English → Indonesian
Services	Translation, Editing & Proofreading
Primary Focus	Meaning Preservation, Terminology Consistency & Readability
Document Type	Long-Form Informational Document

The following pages present three excerpt pairs chosen to illustrate specific aspects of the translation process: navigating complex sentence structures, preserving logical relationships between clauses, and applying consistent, context-appropriate terminology throughout.

Translation Samples

01 Complex Sentence Structure

ENGLISH SOURCE

This principle is often used to avoid retraumatization, but it is equally important to consider harms that may arise if patterns of dependency on practitioners or their organizations develop or if these organizations make commitments or imply support that may be difficult to sustain over time.

INDONESIAN TRANSLATION

Prinsip ini sering digunakan untuk menghindari retraumatisasi, tetapi sama pentingnya untuk mempertimbangkan kerugian yang dapat timbul jika pola ketergantungan pada praktisi atau organisasi mereka berkembang atau jika organisasi-organisasi ini membuat komitmen atau menyiratkan dukungan yang mungkin sulit dipertahankan dari waktu ke waktu.

The source sentence carries a concessive clause followed by two parallel conditional clauses joined by "or." Reproducing that layered structure in Indonesian required careful clause ordering to keep the sentence readable without breaking it into shorter sentences.

02 *Logical Relationships*

ENGLISH SOURCE

Before women survivors of sexual violence and their children share their stories, it is important they first understand the current and possible future use of their stories and are free to choose among the options available to them, including the option not to share their stories.

INDONESIAN TRANSLATION

Sebelum para perempuan penyintas kekerasan seksual dan anak-anak mereka membagikan cerita mereka, penting bagi mereka untuk memahami bagaimana penggunaan cerita mereka di masa sekarang dan kemungkinan di masa depan dan bebas memilih di antara opsi yang tersedia untuk mereka, termasuk opsi untuk tidak membagikan cerita mereka.

This sentence sets a temporal condition, then chains two sequential requirements before closing with an inclusive clause. Keeping that order intact in Indonesian was necessary to preserve the original logical sequence between condition, requirement, and exception.

03 Contextual Terminology

ENGLISH SOURCE

Along with the principle "do no harm" is a commitment to ensure the active participation of women survivors of sexual violence and their children in all formal and nonformal transitional justice initiatives.

INDONESIAN TRANSLATION

Bersama dengan prinsip "tidak membahayakan", ada komitmen juga untuk memastikan partisipasi aktif dari para perempuan penyintas kekerasan seksual dan anak-anak mereka dalam semua prakarsa keadilan transisi formal dan nonformal.

Specialized terms such as "transitional justice" and "survivors" recur throughout the source document. Rendering them consistently as "keadilan transisi" and "penyintas" – rather than switching between synonyms – was essential for terminological coherence across the full text.

PROCESS

Editing & Proofreading Approach

Each excerpt shown in this portfolio passed through a structured review beyond the initial translation draft, applied consistently across the full document from which these samples are drawn.

-
- Terminology checked for consistent Indonesian equivalents
 - Register and tone reviewed for natural, formal phrasing
 - Grammar and spelling proofread of the Indonesian text
 - Final read-through for meaning preservation and sentence flow
